WORK EXPERIENCE

Web Developer

Philore Manpower Corporation

March 11, 2024 – June 27, 2024

Chino Roces Ave, Makati City

- As a Web Developer for an agency, I worked on a project to develop an integrated resume where the worker would just enter the data and it would be converted to PDF. Among the requirements for our Supervised Industrial Training (SIT) program
- Worked as UI/UX as well to design a database layout for a company.
- Utilize tools such as HTML, CSS, Tailwind CSS, and Figma for the project.

Internship

Technical Education and Skills Development Authority (TESDA)

Nov. 2020 – Present

Taguig, Metro Manila

- The proper way of executing call etiquette through accepting calls
- Help colleagues to encode set up the office in a way that streamline processes
- Learned to use diagnostic tools and software for troubleshooting
-

PROJECTS

E-Learning Visualized and Audio Learning Web for Phonetic Reading

Oct. 2023 – Feb. 2024 (Present)

- Visual Studio Code

- As the primary programmer for the project, I will be responsible for developing both the frontend and backend, implementing various features, and ensuring the seamless functionality of the system.
- This project holds special significance as it serves as our final capstone project at school, symbolizing the culmination of our academic journey and showcasing our comprehensive skills in both frontend and backend development
